

Nexus Arcade Game Ideas

This repository is the planning home for Nexus Arcade game concepts.
We will load game ideas here as small, organized documents instead of scattered notes.

Purpose

- Capture arcade-ready game ideas quickly.
- Keep each idea easy to review, remix, and prioritize.
- Separate rough concepts from production-ready game plans.
- Build a shared backlog for Nexus Arcade content.

Planned folder structure

```
NexusArcade-GameIdeas/  
|- README.md  
|- README.pdf  
|- ideas/  
|   |- raw/           quick one-page idea drops  
|   |- refined/       clearer playable concepts with mechanics and loops  
|   |- ready-for-prototype/ ideas scoped tightly enough to build  
|- genres/  
|   |- action/  
|   |- puzzle/  
|   |- racing/  
|   |- co-op/  
|   |- rhythm/  
|   |- experimental/  
|- templates/  
|   |- game-idea-template.md  
|- archive/           retired, merged, or superseded concepts
```

Idea document shape

Each game idea should eventually include title, one-line pitch, arcade cabinet fit, core loop, controls, player goal, failure state, visual identity, audio identity, prototype scope, and notes / open questions.

Current status

This repo is being prepared as the organized idea bank for Nexus Arcade.
Game ideas will be added incrementally into the folder structure above.
